"THE PRINCE WANTED! were forty-two American and seven Cunadian catabilishments in the countination. Their purchuses were all made by one man, and a committee of three salling he bought in guide book in New York. It wan un English publication, and of course its duty had been paid whon it was imported. And also, of course, the distribution of the book by the purchases. So the man who became its owner paid for the book, duty and all.

The greatest improvement in Corsets during the past twenty years is the use of Coraline in the place of horn or whalebone. It is used in all of Dr. Warner's Corsets and in no others.

The advantages of Coraline over horn or whalebone are that it does not become set like whalebone, and it is more flexible and more durable. Dr. Warner's Coraline Corsets

are made in twenty-four different styles, fitting every variety of figures-thin, medium, stout, long waists and short waists. Sold everywhere.
